**Local Rustlings.**  
High winds have ruled the past week.

Trains from the east have been late nearly all week.

The flush pay-day has started a number of the games in town.

Keep your eye on the RUSTLER and you will not go far astray.

Santa Fe has uniformed its police force. They look like soldiers! See?

E. M. Cunningham has been assisting the opening up at Ben Oakland's.

By next spring mine investments and mine development should begin in earnest.

The duck shooting season is now fairly begun and will remain good through the winter.

Christmas is coming. Where is your advertisement for that class of trade, Merchant?

The Fischer Brewing Co., of Santa Fe, shipped 120 kegs of beer to Cerrillos last month.

The Cash Entry works recovered from last week's mishap and all is running nicely again.

Ladies' and Children's wool mittens, just received in full lines, at J. H. Gerdes & Co's.

An adjourned meeting of the Board of Trustees will be held tomorrow night at City Hall.

David L. Miller is plowing up ground to cultivate next year, east of town in the Gallisteo valley.

Next Thursday is or should be, Thanksgiving day. Do we hear the turkey gobble? Nary gobble.

The front of the North building, occupied by Mrs. C. Doyle, has been built up to a level with the block.

The enormous city license of ten dollars a year—payable quarterly—is imposed on the saloon keepers of Cerrillos.

The children's missionary meeting at the Methodist church was postponed last Sunday night until the next Sunday night.

Cerrillos now has but five licensed butchers and meat dealers. There is talk of another one coming down from Santa Fe however, to make out the half dozen.

Gerdes has ordered a fine stock of Christmas candles that will soon arrive. The delicious cream candles now in stock are fresh, and a tempting lot of goods.

C. G. Story came in from the Turquoise mine to attend church Sunday. Young men are apt to be religiously inclined when there are plump and pretty young ladies to go to church with.

Mike O'Neal, at the coal mines, got mixed up in a free fight Tuesday and had his lip bitten off. He came to town and Dr. Palmer patched his face up. Hope the Dr. didn't make the same mistake the army surgeon did.

Santa Fe people expect the government to station soldiers again at Ft. Marcy, as the order transferring that reservation to the government land department has been changed and the property will remain at the service of the army.

"Rose of Kansas" and "Imperial," favorite brands of flour—from the celebrated Walnut Creek Mills—just received in carload lots, by Ames & Gould, who now have the largest and best stock of flour ever brought to Cerrillos.

Saloon signs have been laying around the streets promiscuously this week, until collared by the marshal and taken to adorn the interior of the saloons. Shame upon such a condition of humanity! Is that what you work for, man and brother?

Copper matte, carbonate ores, silver-lead and zinc concentrates, anthracite and bituminous coal and coke are among the principal products shipped from Cerrillos. The small and more precious shipments according to bulk, are gold bricks, nuggets and dust, and turquoise.

The following are subscribers to the RUSTLER this week: James Atkins, Wm. Ash, Jas. A. Jackson and A. Ready, Cerrillos; John Patterson, Jack Akers, Jno. T. Forsha, Santa Fe; L. W. Morgan, San Pedro; C. W. Floyd, Dolores; D. C. Beaman, secretary Colorado Fuel Company, Denver Colorado.

Rev. Father Defourei came down from Santa Fe to visit Cerrillos and Bernalillo, this week. He has purchased the triangular piece of land across the San Marcus orroyo, on the Santa Fe road, for a cemetery site, and the same will be improved for that purpose by his church people.

Mr. A. H. Reynolds writes from Chicago for copies of the RUSTLER, and on the postal card takes occasion to remark: "You are the center of the best mining region in the west. It is undeveloped as yet, but some day the key will be found and then look out for the biggest boom in the world."

It is obviously the duty of the marshal to preserve order and quiet in the town, and he should have the co-operation of the Board of Trustees and the people in doing this. A man may have the right to get drunk, but he has no right to become disorderly and make a nuisance of himself by disturbing others.

James Newhall and S. Warner drove down from Santa Fe last Saturday. They were employed in A. T. Grigg's undertaking business. During his call here Mr. Newhall stated that T. P. Gable's case in which he claimed a partnership interest in the business, had been thrown out of court by the judge.

There is no room in any town which desires to prosper, for the kicker, and until he is "kicked" out, no town can advance very rapidly. Neither is there room for bosses. What a town wants is people who will pull together for the common good. When the people of any community begin to do this, that community cannot be held in check.

In the New Mexican's "Cerrillos Notes," Wednesday, appeared the following: "It is said that Cerrillos had the biggest pay-day for this month, Saturday and Monday, which that mining section has enjoyed within the past two years. The coal mines and the Cash Entry all paid off and the town was filled with happy miners. The coal business continues good and a few more months of the same kind of business will go far to make up for past depression."

A miner known as "Newcastle Jack," was shot through the leg at Gresham & Peterson's saloon on Tuesday night. No particulars of the shooting could be obtained except that the revolver was found lying on the floor. It was reported that the shooting was accidental, the gun dropping to the floor and exploding. No bones were broken. So much for carrying a deadly weapon against the law.

## San Pedro Rustlings.

Mr. and Mrs. Geo. R. Bailey are both on the sick list.

Ladies' trimmed and untrimmed hats at G. Z. & Co's.

Married, on the 13th inst., by V. Schick, Esq., Mr. Richard Gibbons and May Meirose. Wedding quiet; no cards.

Latest styles in all kinds of Ladies Dress Goods, just arrived at G. Z. & Co's.

Mr. Conger feels confident that the San Lazarus troubles will soon be adjusted and the mine be working again with increased force.

Call on G. Z. & Co. They have now a complete stock of Dry Goods, Clothing and Gents' Furnishing Goods. They also take measures for Mills & Averills, St. Louis, and F. Kaufmann, Chicago.

Henry Pierce, charged with cutting Verona in the face with a knife; also with taking improper liberties with the wife of Alex. Steck, was taken to Santa Fe Wednesday and lodged in jail by constable Frank Cienfuegos, in default of \$1,500 bail.

Manager R. Y. Anderson, of the Lincoln-Lucky, is feeling elated over the nearly completed condition of the Middleton shaft, which will make the mine a great producer again as soon as it reaches the ore body. When the mine gets fairly to work, it should ship from 50 to 80 tons of ore a day, and this, with the increased matte and coke hauling for the Copper Company, will make teaming lively again between San Pedro and Cerrillos.

A nice line of Boots and Shoes at Goodman, Ziegler & Co's.

The mining congress now in session at Denver, is attracting much attention. In the rock drilling contest Wednesday, Butte City, Montana, beat the world record held by Leadville.

## The Money Secured.

It is stated that the Milwaukee parties who were to build a smelter at Cerrillos, have succeeded in raising the necessary capital for the purpose and that the plant is assured.

## OBITUARY.

August Bruhn, the Bridge street merchant of Santa Fe, died on Wednesday of this week.

Died, at the residence of his son, Jacob Jones, in Cerrillos, on the night of the 13, inst., Elijah Jones, aged 80 years.

Mr. Jones had been on a visit for a few weeks with his sons, L. G. and Jacob Jones, coming here from Texas. He had enjoyed good health through life until recently, when age and worn constitution began to tell. He was quite feeble on his arrival here three weeks ago. He had lived a useful life, was many years a member of the church and merited the respect of all who knew him. His remains were buried in the Cerrillos Cemetery Saturday afternoon.

## Assault at Gallisteo.

Louiz, the Gallisteo merchant who had his hand so badly torn the first of last July by the explosion of a giant fire-cracker which he was holding, has again been unfortunate. On Wednesday night of this week he was called out by a Mexican named Pina, who beat him nearly to death with a club, on account of some old grudge. Dr. Palmer, who was called from Cerrillos to dress the man's wounds, relates that his head and body were badly bruised, both eyes closed and his jaw broken so that a piece the width of three teeth, had to be taken out, and that he was altogether in a precarious condition. Pina was under arrest, and it was thought if not taken to Santa Fe, might be lynched, so great was the indignation against him. Louiz appears particularly unfortunate. Not long since he had his store robbed, only recovering a part of the goods.

## San Pedro R. R. Meeting.

At a meeting of citizens of San Pedro and vicinity held on the evening of Nov. 14, 1891, to hear a report from delegates Anderson and Rogers, to the convention of Colorado and New Mexico railroad men held at Santa Fe Nov. 11th, V. Schick was called to the chair and Alexander G. Lane appointed secretary.

R. Y. Anderson first addressed the people, discussing the proceedings of the meeting at Santa Fe. He stated that Albuquerque delegates pledged the readiness of that city to put up \$100,000 to obtain connections with San Pedro and the Rio Grand system, and that the Santa Fe Southern people agreed to break dirt inside of sixty days if the railroad bonds heretofore voted were refunded by the county commissioners.

Mr. Mayo was then called upon to explain his position on the railroad bonds in question. He stated that the conditions on which the bonds had been voted were never complied with. He read a letter from another county commissioner treating of an interview with Mr. Chapman in which it was stated that that gentleman wanted certain things done and the bonds refunded, but promised nothing. Mr. Mayo in his interview with Mr. Chapman, pledged to put the bonds in escrow, to be delivered on the completion of so many miles of railroad to San Pedro, but that he should not consent to refund the bonds until some guarantee was given of the road completing its line across the county.

Mr. A. Rogers stated that, as the county had, within the past six years, expended nearly a million and a half of dollars for the benefit of other portions of its territory, it should be willing to give San Pedro the benefit of \$100,000 to get a railroad to the best producing part of the county. He was for railroad all the time.

Further short talks were had from Dr. Lane, Mayo, Anderson, and other gentlemen present.

It was accepted as the feeling of the meeting that while Mr. Mayo may not have shown proper courtesy to the railroad people by failing to attend the meeting at Santa Fe, his position in regard to not refunding the bonds without a guarantee, was fully endorsed.

On motion these minutes of the meeting were read and approved, and it was further moved that the same be published in the RUSTLER.

A. G. LANE, Sec'y.

## Thanksgiving Dinner.

The ladies of Cerrillos will serve a Thanksgiving dinner at the M. E. Church next Thursday, for the benefit of the pastor's salary. All are invited.

## How Will It End?

Just how the coal business will culminate, in the matter of possession, seems as yet uncertain. The Cerrillos Coal & Iron Co., through its superintendent, Mr. Risque, demands possession, offering to give leases to the operators on its land, also offering to protect those who take these leases, against all other interests. In an interview the Coal & Iron Company's superintendent was asked if he considered it protection for one man to pay a royalty and another one not? He replied: "I do not, and that will not be permitted. When we promise a man protection we mean protection in all that the word implies. We offer these operators a lease, protection and friendship. If any refuse, they must accept the consequences. It is our desire to keep everything harmonious and throw no obstacle in the way of Cerrillos, to shorten her coal output, but we must protect our interests and the interests of our tenants, as soon as they become such." The whole business would be much better settled, and settled for all alike, if it can be done anything like satisfactorily. Increased business would mean greater prosperity, litigation, present depression if not ruin.

This office is prepared to do good plain job printing on short notice.
